

# WE OFFER PORTABILITY, FLEXIBILITY, CONVENIENCE AND VALUE!

**Complete Course Management:** AHUSC utilizes a Learning Management System that integrates courses with student body. We have incorporated the best practices of web design to make our Student Center more intuitive, elegant, and simple enough for any student to use.

**Integration:** Our massive features work together towards one goal for our students to share real-time information in meaningful ways without any add-ons, downloads, or anything else. It works. Finding what you're looking for is no longer a chore. Our interface avoids gigantic menus, "spaghetti-link" navigation, and other things that get you lost or confused -you can go where it makes sense and meaningful to go next.

**Student-Faculty Friendly:** Access for everyone staff, faculty and students. Our Student Center simply does more when everyone can use it. Students can see all things: grades, ranking, live/archived courses and lectures at a glance. Professors can submit grades with a click. Our system is useful, thoughtful and helpful.

**Customized Academics:** We can now deliver our courses in a simple format. We form our courses around our lessons, complete with forums, links, and other content. We build and customize online tests as well as set time limits, all designed clearly so that any student can follow along, sing along and learn along!

**Student Center:** We utilize state-of-art student life cycle software...enabling us to manage your learning experience and allow you to view your account and grades at all times. You will have complete awareness of your progress throughout the learning process!

For an online live demonstration, please visit Student Center Live Demonstration and type in the user name [kstudent] and the password [call 909-884-9000 for password]. Once you log in, you will be guided through an actual demonstration of what students see in class!
